

KUNSTSTOFFENBEURS 2023

Future Proof Plastics – Innovative, Sustainable and Smart

20 & 21 SEPTEMBER 2023
BRABANTHALLEN | 'S-HERTOGENBOSCH

24th edition
www.kunststoffenbeurs.nl

MORE INFORMATION

The meeting place where a sustainable future with plastics and rubber is central

Few materials are as light, strong, pliable and colorful as plastic. In fact, plastic is a miracle material: it also has a long lifespan and even food keeps longer. At the same time, plastic is not always in the news in a positive light. Even though the plastics and rubber chain is working hard to make its products more sustainable and to increase their value to society. As the leading trade fair for the plastics and rubber industry, the Kunststoffbeurs offers companies, start-ups and knowledge and network organizations the opportunity to present their innovative strength, sustainable solutions and smart production solutions to the public.

VISITOR PROFILE

The Kunststoffbeurs 2023 focuses on professionals working throughout the chain:

- Buyers
- Product designers
- Constructors
- Engineers
- Chemical technologists
- R&D staff
- Matrix designers
- Injection molders
- Work planners
- (technical) directors and managers of injection and extrusion companies
- Toolmakers
- Product design offices
- Other industries with plastic and rubber applications. Think of everyday consumer products, (food)packaging and automotive and machine parts

EXHIBITOR PROFILE
